KARANPREET SINGH

Software Developer

Skills- Java, Python, Javascript, Software Testing, Sql Database, Leadership, Negotiation

PROJECTS

Facial Recognition System (09/2022 - 12/2022):

Developed a real-time facial recognition system using deep learning algorithms. Integrated it with existing security infrastructure for enhanced access control.

Automated GPS Drone (02/2023 - 05/2023):

Led the development of an autonomous GPS drone for surveillance missions. Designed flight control algorithms and integrated sensors for obstacle detection.

Google Drive using blockchain (06/2023 - 07/2023):

Integrated blockchain with Google Drive for improved data security. Implemented decentralized file storage and smart contract-based access control mechanisms.
